

TradeArchitect Privacy Policy

Effective Date: 04/30/2025

Last Updated: 01/05/2026

Thank you for using TradeArchitect. Your privacy is important to us. This Privacy Policy outlines our practices regarding information collection, use, and protection.

1. Information We Do Not Collect

TradeArchitect does **not collect or sell** any personally identifiable information. We respect your privacy and maintain a strict policy of not gathering personal details, financial information, or other sensitive data.

2. Anonymous Data Collection

We may collect anonymous usage data and metrics to help us understand how users interact with our Software. This data:

- Does not contain personally identifiable information.
- Is used solely to analyze and improve the performance, reliability, and usability of the Software.

3. Broker Integration and Security

TradeArchitect integrates securely with your brokerage account using industry-standard OAuth authentication methods. This means:

- We **do not** store or access your brokerage login credentials.
- We **do not** have access to your bank accounts or sensitive financial information.
- All interactions with your broker's platform happen directly via secure APIs provided and maintained by your broker.

4. Data Security

We employ robust security measures to protect any anonymized data we collect, ensuring it is stored securely and is protected against unauthorized access.

5. Changes to This Privacy Policy

We may periodically update this Privacy Policy to reflect changes to our practices or relevant laws. Users will be notified of any significant changes by updates to the policy's effective date on our website or within the Software.

6. Contact Information

If you have questions or concerns regarding this Privacy Policy, please contact us:

contact@tradearchitect.pro

Note: Please review this Privacy Policy regularly to ensure you are aware of any updates.
